

**Situation of the Black Population in the United States,
And Dangers with Which its Presence Threatens the Whites**

I do not believe that the white and black races will ever live in any country upon an equal footing. But I believe the difficulty to be still greater in the United States than elsewhere. An isolated individual may surmount the prejudices of religion, of his country, or of his race; and if this individual is a king, he may effect surprising changes in society; but a whole people cannot rise, as it were, above itself. A despot who should subject the Americans and their former slaves to the same yoke might perhaps succeed in commingling their races; but as long as the American democracy remains at the head of affairs, no one will undertake so difficult a task; and it may be foreseen that the freer the white population of the United States becomes, the more isolated will it remain.
